The words we aim for our clients to use to describe us are passionate, committed to deliver, practical, specialists and knowledgeable in what we do. We are energetic and persevering and aim to offer fastest and most professional services. Individuals are driven and committed and accountable for specific objectives.

The golden strand throughout is a commitment to innovation, quality and services.

### Our strengths

- Seamless management
- Space availability during peak periods
- Cost effective service
- Company culture of express service
- Professional administration
- Physical security and CCTV
- monitoring of operations

### International freight forwarding

To bridge the complex, competitive divide between the deliveries of products, from source to end-destination, for quick sale thereof, requires extensive experience and specialist knowledge that ensure that shipments and all commercial and statutory documentation satisfy international trade requirements.

We are certified and proficient in the transportation of dangerous goods and hazardous materials.

As a freight forwarder, Connect is an experienced partner in commercial matters, modes of transport, import, export processes and regulations.

As well as an effective route planning focus from supplier to delivery destination. This is provided from a single service point, executed and supported by specialized and dedicated teams and staff that ensure your peace of mind.

## Air Freight

With a vast experience in the air cargo industry, Connect ensures space availability when you need it most.

We are a reputable, credit worthy company with accounts at all airlines. Airfreight remains the premium form of transport when the requirement is for:

- Rapid international delivery
- Exact arrival times for order fulfillment
- Just-in-time inventory (JIT) management
- As well as a focus on products with limited shelf life Customs Clearance & Freight Admin.

To prevent costly delay and possible embargo of products and shipments, perfect handling of all shipment, commercial and fiscal documentation needs to be performed to support the physical product movement.

We pride ourselves in providing a cost effective, integrated documentation service performed by specialists to ensure flawless execution.

Ensuring that all the solutions are executed rapidly, accurately and to perfection, specific coordinated operations guarantee that the service levels that we boast of are achieved.

## Road freight

leading international partners enable us to provide similar service levels internationally if required.

Our local dedicated fleet of vehicles is all equipped and designed for specialist application, therefore ensuring that we provide superior service levels and quick, accurate delivery. Road freight provides flexible regional transport, with expert skills in crossing border procedures, type of product and priority shipment handling. This is for individual or consolidation loads including perishable products. Our own fleet enables us to control schedules and delivery priorities that we commit to.

## Sea Freight

AIRGATE LOGISTICS GROUP is an independent freight forwarder operating with shipping agents worldwide to provide competitive rates and options for moving:

- FCL (full-load cargo),
- LCL (less than container load)
- Break-bulk cargo
- Whether imported, exported or trans-shipped.

With warehouses strategically located near the port of Jeddah and King Abdul-Aziz International Air Port, Connect is equipped to handle both bonded and cleared cargo.

Biosecurity of Jeddah and Customs officers are actually based on site at the Connect warehouses to help facilitate the movement of the cargo. Quality Assurance

Our specialist team of Quality Assurance staff can perform a comprehensive range of quality control routines if required. In addition to a range of temperature controls, it further extends to product weight, color, sugar, shelf life, length and appearance.

## Value-added Perishable Services

In addition to the dedicated and customized infrastructure, a range of specialist services ensures that product quality and freshness are maintained. Temperature recordings of the facility's temperature are computer logged and available upon request.

Product temperature is taken by our Quality Control staff with calibrated thermometers and records stored on-site or forwarded to parties requiring such information. Should it be required, temperature data loggers can be supplied.

The Reefer Refrigerated trucks have computer couplings for immediate unloading of goods upon arrival.

## Frozen goods handling

Duty operations and maintenance staff are available 24 hours, ensuring the best possible continuity and operational control. The facility is custom designed to maintain the cold chain integrity of air and road freight during receiving and dispatching. To accommodate customers with a requirement for the storage and services of frozen product we have facilities to store products up to  $-20^{\circ}\text{C}$ . Trained staff ensures that product temperature is achieved and maintained when stored at all times. Continuous power supply is guaranteed via a dedicated 550 KVA standby generator, capable of generating the electricity supply required to power the entire site. All entry and exit to the refrigerated facility take place via sealed loading bays and air curtains stabilize airflow regulating the proper temperature of the facility.
